

✅ Sustainability Checklist: Small Changes, Big Impact

♻️ Waste Reduction

1. Switch to Compostable Bin Liners

Replace traditional plastic liners with compostable options like the [Ecopack 27L Compostable Bin Liner Roll](#). These liners are made from natural corn starch and break down in approximately 90 days, leaving no harmful residues.

2. Use Compostable Food Packaging

Opt for compostable packaging solutions such as [Biopak's range](#), which includes items like cups, lids, and containers made from renewable materials.

3. Implement a Recycling Station

Set up clearly [labeled bins](#) for recycling, compost, and general waste to encourage proper disposal and reduce landfill contributions.

🧼 Sustainable Cleaning Practices

4. Choose Eco-Friendly Cleaning Products

Utilize natural cleaning products like those from [Green Earth](#), which are biodegradable and safe for both users and the environment.

5. Use Concentrated Cleaners

Concentrated products reduce packaging waste and transportation emissions. Consider options like [Bio-Zyme Enzyme Based Cleaners](#) for effective and eco-friendly cleaning.

6. Adopt Reusable Cleaning Tools

Replace disposable cleaning tools with [reusable alternatives](#) to minimise waste and reduce costs over time.

🍴 Sustainable Food Service

7. Offer Compostable Cutlery and Plates

Provide customers with compostable dining ware such as [Ecoware's biodegradable](#) options, made from bamboo and sugarcane.

8. Use Recyclable or Compostable Takeaway Containers

Choose containers that are either [recyclable or compostable](#) to reduce environmental impact.

9. Encourage BYO Cups and Containers

Offer incentives for customers who bring their own reusable cups or containers, promoting a culture of sustainability.

🌱 Office and Staff Initiatives

10. Implement a Green Purchasing Policy

Prioritise purchasing products that are eco-friendly, recyclable, or made from recycled materials.

11. Educate Staff on Sustainability Practices

Conduct regular training sessions to keep staff informed and engaged in sustainability efforts.

12. Monitor and Report Progress

Track your sustainability initiatives and share progress with staff and customers to maintain transparency and motivation.
